GERMANS FORCE AHEAD

Boche Landing Parties Overrun
Islands in Gulf of Riga and
Occupy Arensburg.[BY INTERNATIONAL NEWS.]
London, Oct. 15.—With a German
fleet landed on Oesel island, at the
entrance to the Gulf of Riga, and a
great German fleet operating in the
Baltic, today found the attention of
Europe concentrated upon the eastern
theatre of war.Late advices from Petrograd re-
ported that a large part of Oesel island
had been overrun by the German
army and the Germans were still
fighting for Dagoe and Moon islands,
opposite the mainland.The long heralded land and sea
drive against Petrograd is apparently
under way. The objectives of the
new eastern campaign of the German
general staff are apparently the fol-
lowing:1. Capturing of the island group
commanding the Gulf of Riga for use
as a naval base.2. The landing of German troops on
the mainland in an effort to turn the
back of the Russian army resting on
the Baltic.3. A blow at the Russian fleet in
the Baltic.4. A combined drive against Baltic
ports Riga and Gornstadt as the pre-
liminary move to a stroke at Petro-
grad itself.5. The capture of Kerenky is in action
and making the lead in a movement to
use the Russian soldiers to make a
desperate resistance against the in-
vading Teutons.[BY ASSOCIATED PRESS.]
Occupied Arensburg.Petrograd, Oct. 15.—German forces
which landed on the Russian island
Oesel at the head of the Gulf of Riga
on Friday occupied Arensburg, the
capital of the island, it was announced
Saturday by the Russian war office.
Arensburg is on the south shore of
Oesel island. The northern group of
German warships which landed there
sent a torpedo boat squadron between
the island of Oesel and Dagoe which
prevented the Russian patrol.Russian naval forces reinforced the
patrol and fought a battle in which
the German ships were repulsed.Fighting for Oesel island the war
office announced, continued all day
yesterday.

Push Russians.

Petrograd, Oct. 15.—The German
forces landed on Oesel island and are
pushing east and south placing in a dif-
ferent position the Russian forces and
batteries in the district of Arensburg
and especially those on the Cerel Penin-
sula. Military critics predict actions
in the Gulf of Riga will follow the
renewal of the invasion to the
main land on the coast of Estonia
rather than by an attempt toward the
Gulf of Finland. The Gulf is protected
by mine fields which the Germans
would have to sweep under the
menace of the Russian fleet.

Press Alarmed.

Petrograd, Oct. 15.—The news-
papers exhibit alarm at the landing of
the Germans. The Bourne Gazette
says the situation of the country is
the more complicated because a solu-
tion must be found not only of the un-
satisfactory state of affairs in the in-
terior but of the problem presented
by the closing of the Gulf of Riga.

of Germans Among
the Entente Powers[BY ASSOCIATED PRESS.]
Paris, Oct. 15.—Leon Daudet, edi-
tor of La Franciscie, who has taken a
prominent part in the exposure of
German intrigues in France, writes
under the heading: "Am doing my
duty in the plot against France" that
everyone has noticed since the war
began that "there was something rotten
somewhere which delayed the vic-
tory of the allies," he continued,
"there is some German war money
employed within the allied countries.
There was the Bolo Pasha fund for
corruption of the press, the Von Bue-
low fund for diplomatic intrigues and
the Hoechehoe fund for promoting
crimes and sedition. The last named
fund was by far the most important.
It was employed to promote a plot
carefully prepared for months which
broke in both the army scene and the
rear formation in May and June of
this year. This plot nearly attained
the result hoped for by the German
government."TERRIFIC BLAST AT
BIG POWDER WORKS
KILLS 2, INJURES 2Philadelphia, Oct. 15.—An explosion
at the Gibbstown, New Jersey plant
of the Dupont Powder Co. destroyed
windows in buildings within a radius
of five miles or more. Skyscrapers in
Philadelphia nearly twenty miles dis-
tant were rocked. Gibbstown is an
isolated town, eight miles below
Pomona on the Delaware river.Woodbury, N. J., ten miles north of
Gibbstown reported that the explosion
was the worst ever felt there and the
town has felt many from the powder
plants of lower New Jersey and Dela-
ware. One hundred of the men em-
ployed in the work live at Woodbury
and a few telephone messages from
workmen who were unhurt were re-
ceived. Communication with the
scene of the explosion was not pos-
sible for a long period after the dis-
aster, but it is believed that damage and
loss of life is great.Philadelphia reports that two men
were killed and one badly injured.
The explosion today was in the nitro-
starch dryhouse at the Dupont
powder works and resulted in the
death of two workmen. A third man
is missing and another is seriously in-
jured. The destroyed building was a
small structure isolated from the rest
of the plant and the force consisted
of the four men mentioned.There was no other damage. The
company says there is nothing suspi-
cious about the explosion. Because of
its terrific force alarming reports
were circulated. Almost everybody in
Philadelphia, twenty miles distant,
felt it.SWEDISH SHIP FIRED

ican liner arriving here today re-
ported having fired on a Swedish vessel
in the English Channel. The liner
said the Swedish vessel was fired upon
by the British relief service early yes-
terday about 400 miles off shore. The
incident occurred when the Swedish
vessel at first failed to respond to flag
signals or reveal her name and destina-
tion.A blank shot was fired. Getting no
response, a solid shot was sent across
the bows of the Swedish boat and a
third fired hit a spar which was trail-

aroused the Swedish officers, who or-

CONVICT HIM IS DENIED.

WRITSE TO POMERENE

Seeks to Have Purpose of Probe Re-
vealed to People—Public
Hearing Tomorrow[BY ASSOCIATED PRESS.]
Washington, Oct. 15.—Chairman
Pomerene of the senate committee in-
vestigating Senator La Follette's St.
Paul speech today refused La Follette's
request that the inquiry virtually be
discontinued to acquit or convict him of
disloyalty and held that the investi-
gation could only concern the much dis-
cussed speech and the accuracy of its
statements.In a letter to Senator Pomerene La
Follette denounced the committee's
procedure as "extraordinary and un-
precedented" and demanded specific
information of the charges made
against him those overruling any
of his statements and a "thorough-
going" investigation he declared he
would not subject himself to examina-
tion until he received the specific
information."The public has been led to believe,"
said Senator La Follette, "that the ac-
tion of your committee is the initial
step in a proceeding involving the title
of my statement in the U. S. senate and
that the investigation you are making is
for the purpose of determining the valid-
ity of the charge of disloyalty made
against me—the gravest charge that
can be made against a public servant.
If this is not the purpose of your in-
vestigation it seems to me both the public
and myself are entitled to know it now.""If the charge against me is of suf-
ficient importance to be investigated,"
he later continued, "it is of sufficient
importance to be investigated thor-
oughly, and I insist upon the right to
meet face to face and cross-examine
any person who challenges the accu-
racy of any statement in the senate."
Senator Pomerene in his reply de-
clined to extend the inquiry and re-
newed the invitation to Senator La
Follette to appear at a public hearing
tomorrow in response to La Follette's
demand for more specific information
in lieu of the committee's purpose and
charges against him. Senator Pomer-
ene replied that the first public hear-
ing would be held tomorrow and he
hoped Senator La Follette would ap-
pear to be examined regarding accu-
racy of statements in his St. Paul
speech.Beyond that Senator Pomerene ex-
plained the committee is not author-
ized to proceed.INVESTIGATE CAUSE

Copenhagen, Oct. 15.—Instead of in-
stituting a successful coup and
strengthening its position by giving
out news of a mutiny in the German
army, the imperial government at Ber-
lin found that it has only blundered
again. This was the explanation
placed today upon the efforts of the
German admiralty to "cover up" and
to make it appear that the revolution-
ary plot was exaggerated and not
nearly so far-reaching as pictured last
week.The political situation, revolving
around the question of peace terms,
has now resolved itself into absolute
chaos. The newspapers are divided
into factional groups, each clamoring
for its own theories of how to win
the war or to bring about an early
peace.The Kaiser is expected to return to

Polo Grounds, N. Y., Oct. 15.—The
Chicago White Sox are today knock-

New York Giants throw in their
lot for the world's series. A defeat today for the
Giants and the American League will
give them a chance to win the series

government in its efforts to stabilize
the price and distribution of potatoes.Several resolutions were passed.
The one creating the most discussion
was in regard to adopting the recom-
mendations of the agricultural depart-
ment at Washington regarding grades.
E. F. Miller, representing the food
administration at Washington, stated
it was the intention of the govern-

the potato industry with the exception
of the grower and the retail dealer.
The government would probably
have inspectors in the different prin-
cipal markets whose duty it would be
to report anyone shipping potatoes
that contained large amount of waste.C. E. Milward, secretary of the Wis-
consin Potato Growers' association,
and also representing the state agri-
cultural college, spoke on various sub-
jects, and particularly on the potato
while in some cases he might entertain
some different views from those
of the agriculture department at

to secure anything was for all po-

CO. M. NOW ENJOYING
MANY REAL COMFORTS
OF U. S. ARMY LIFE

(By Sergeant Beard.)

Waco, Texas, Camp MacArthur, Oct. 14.—We really had a little rain yesterday and now the dust does not bother us as it did before.

Hatched from the delay in reaching the down town district from Camp MacArthur is the promised soldiers by the Mason & Pound line of auto camp busses.

Four motor trucks have been put into service by Mason & Pound, the trucks having been fitted with newly built bodies. Six rows of seats run across each bus, and the management claims that the soldiers can ride in comfort on each bus. Two of these cars will run to Sections A and B, and C and D, and the other two to sections E and F.

The cars have been painted a light brown, and the tops afford protection from sun or rain. They will run to and from the down town district on a thirty minute schedule. It is claimed by the management that this line is the first one to start giving the soldiers auto transportation to and from Camp MacArthur for a reasonable charge. They have been charging us twenty-five cents one way to town and this is too much for us to pay when we go to town as often as some of the boys do.

Soldier boys occupying the base hospital at Camp MacArthur will find conditions even more pleasant, life even more pleasant, life even more comfortable and comforts plentiful, when machinery which was set in motion Monday at the Rotarian luncheon makes a few quick turns.

Not but what Uncle Sam provides all basic comforts, but there are other little touches which the government would not be expected to give, but which individuals can and will. A few of these are being followed short and practical talks by Rev. Benjamin F. Batts, religious secretary in building at Camp MacArthur, and E. A. Norton, secretary of the same.

The boys are being told of the opportunities to make life more pleasant for the boys at the base hospital. They mentioned the fact that the chapel is not furnished with books and cheering influence; that some of the boys are fond of smoking, and all that. A committee was appointed on motion of Rev. E. B. Ingram to take this matter up.

The committee being as follows: John W. Tabor, Rev. E. B. Ingram, Dr. W. B. Morrison. In this connection it was stated that Adams & Alcorn of Waco, and E. J. Robinson of the First National Bank building of Chicago, dealers in musical instruments, would donate a piano to the Waco base hospital and would much enthusiasm and a vote of thanks was extended.

It was suggested by L. C. Puckett that a collection be taken for immediate comforts and the same was secured. The price of \$5 in gold given by John F. Wright for the Monday luncheon was added to the amount by vote, making a total of \$10.

Rev. Benjamin F. Batts, E. A. Norton, Major H. Schotten and Capt. Wilton L. Hinkley were elected honorary members. This act got good and interest in the soldier boys and their welfare.

Cold weather does not worry Brigadier General Haan, commanding the 32nd division at Camp MacArthur. The commander makes it a habit to start out at seven o'clock every morning for an inspection of the camp. He visits all sections, pries into all activities, and is usually in the quarters in the morning. Yesterday morning it was cold. Later it rained. The wind blew and before the rain started the dust blew in great clouds all about the camp. But the general did not mind. He hiked out and mounted his horse, and in company with other officers, made the usual inspection. Major Russell, general staff, Major Howard, adjutant general, Captain Briggs, aide-de-camp, and Captain Newman, aide-de-camp, also climbed on their mounts and made the trip.

And the general expression following the daily inspection was that the work is progressing in fine style, and the leader.

All officers above the rank of captain met yesterday at Camp MacArthur to confer regarding matters of importance and importance in connection with the conduct of the local camp. Brigadier General Haan spoke and other officers took up matters that were of vital importance. The duty of field officers as a training committee was the general subject of this gathering of field officers. The meeting was held at headquarters.

Waco to have a fair in Waco soon at the Cotton Palace. Many of the boys are planning on having a good time. The Cotton Palace is a big place. A large fair has been held there. Extraordinary arrangements are being made to provide seating capacity for the vast crowds that will attend the fair. The fair will be held at the Cotton Palace Exposition. In addition to the thousands of seats in the grandstand, new grandstands will be erected on the sides of the field. The first game will take place on Saturday, November 3, the opening day of the exposition. It will be between Baylor and the University of Texas. The second game will be on Sunday, November 4, between Baylor and Baylor. On the last Saturday of the exposition, a history-making game will occur between a soldier from Camp MacArthur and a team from the southern team. A schedule of games between army teams is also being arranged for all three Sundays of the exposition, so you see we have a lot to see.

The year where formerly we played games between Wisconsin and Chicago, etc.

A general order has been issued by Brigadier General Haan, commanding the 32nd division at Camp MacArthur, providing for the establishment of a school for bakers at the base hospital. Lieutenant Colonel H. Erickson, division quartermaster, will have charge of the school. Alexander Harrison, commander of bakery company No. 32, is assigned director of the school, and E. L. Kline, third Wisconsin Infantry, is designated instructor.

Two enlisted men from each battalion of the division, and one from the headquarters company, will be selected to be students of this school, and men who have had experience in baking will be preferably taken. The men so detailed will be known as student bakers, and will be rationed and quartered with bakery company No. 32. The school will start tomorrow at eight o'clock, and will last for a period of three months. The idea is to keep in the minds of those concerned that these men taking the course are to become proficient bakers, and are to be later used as instructors themselves.

Building No. 41 of the army Y. M. C. A. and located in section A, (near Company M street) will be dedicated tonight at 7:30 o'clock. It is the plan to dedicate one of the recently constructed buildings each night. P. A. Ten Haaf is in charge of the building, and he is assisted by Rev. Herbert McConnell, Francis L. Bailey, Cashier, and Henry Poppen. Building No. 41 is probably the one closest to town, being near the North Fifth street car line, and is readily accessible to the public. All have been invited.

An excellent program has been arranged for the occasion, and consists of the following:

Shore Concert—128th Regimental Band.
Song—"On Wisconsin."
Scripture Reading—Captain John T. Kendall, chaplain 127th Infantry.
Prayer—Pastor Gustav Sterns, junior chaplain 127th Infantry.Vocal Solo—
Recessional—DeKoven
P. A. Ten Haaf.

Presentation Address—Wm. B. Van Alst, general secretary army Y. M. C. A., Camp MacArthur.

Response—Brigadier General Charles E. Boardman, commanding the 64th brigade, 32nd division, national guards.

Remarks—Colonel W. M. Lee, commanding the 127th regiment, national guards.

Remarks—Colonel John Turner, commanding the 128th regiment, national guards.

Remarks—Major F. H. Fowler, commanding the 21st machine gun battalion, 64th brigade, national guards.

Song—"America."
Closing Prayer and Benediction—Lieutenant William F. Hood, chaplain 128th Infantry, national guards.

The detail for today was as follows: Police officer—Lieutenant Pelton. In charge of quarters—Corporal Swanson.

Fatigue—Corporal Meyers, Privates Flynn, McDiarmid, O'Brien, Smith, Woodard, Helgeson, Oas and E. Peterson.

Company and Camp Notes.
Bugler Sartell was picked as the best bugler in our regiment in the tryout the other morning. We feel proud of Mr. Sartell and we have reason to be because he is an accomplished musician.

The thermometer took a decided drop last evening and some of the boys were rather cold before morning. It is somewhat warmer this evening though. Privates Bumgarner and G. Estes are detailed on special duty today to work in the canteen.

Private Leo R. Gehrke will be one of the men who will attend the Baker's school. Mr. Gehrke has had some experience as a baker before and we feel sure that Gehrke can make good at this school.

Wednesday's Letter.
Today was athletic day for the 32nd division. We had two ball games this afternoon. The first one was a game between the Stars and the Maroons, picked from the members of the company. This game ended in favor of the Stars by the score of 9 to 1. The lineup and score by innings of the first game was as follows:

Stars—Meyers, c.; M. Dean, p.; Boardman, 1b.; Gump, 2b.; Strampe, 3b.; O'Brien, rf.; Marshall, cf.

Maroons—Schmidt, c.; Swanson, p.; Ellis, 1b.; Jordan, 2b.; Miller, 3b.; Weller, rf.; Ashby, rf.; Corrado, cf.; McKinney, lf.

Stars 1 2 3 4 5 6 7 8 9
Maroons 2 0 0 3 0 1 0 0 0
The second game ended disastrously for the members of Company M, I am very sorry to say. We played a team composed of the members of our neighboring company, Company L, and lost by the score of 20 to 7. The game was featured with many errors and heavy hitting on both sides. I would put the lineup in this letter, but I think it had better wait until we win another game from this company. We expect to play off the tie with them soon and we do hope that we will have better results next time.

The detail for today was as follows: Police officer—Lieutenant Pelton. In charge of quarters—Sergeant Flanery.

Fatigue—Corporal Craig, Privates B. Christensen, Berry, Clarke, Corrado, Daetwiler, Hill, Holden and Jacobson.

Company and Camp Notes.
Corporal George doaned his football uniform this afternoon and attended the regimental football practice. We are sure that the corporal will give the other men that are playing out for this team a good run for their money and we expect to see him make the team.

Mechanic Rutledge and Mechanic Thiele went on an exploring expedition this afternoon and returned with a dozen scorpions and a "king" snake which measured about seven feet in length and about two inches around. The boys sold the snake skin to one of the members of another company.

Bugler Sartell has been very busy the last few days as he has been the musician at headquarters about three days out of the past week.

Whitewater News
Whitewater, Oct. 15.—Mr. Henry Frederick Thiele died at his home on Main street, Sunday afternoon at four o'clock, after an illness of twenty-one but a few days. For sixty-two years he had been a resident of this city, and was in the undertaking business, and dealt in musical instruments. Until the past week he was still active in the affairs of life. Mr. Thiele was born in Hanover, Germany, on January 23, 1832, and spent his boyhood days there and attended university, studying to be an architect. He decided to come to America and arrived at Milwaukee in 1844, where he followed the trade of cabinet-maker. In 1850 he moved to the town of Franklin, near Milwaukee, where he made his first coffin. In 1855 Mr. Thiele came to Whitewater, where he has since resided. It was in that year that he commenced the manufacture of coffins and during the long career as undertaker has buried nearly ten thousand persons. He was one of the three oldest undertakers of the state of Wisconsin. He was a charter member and one of the organizers of the Wisconsin Undertakers' association, organized over thirty years ago, and was president of the same for two terms. He was also a member of the National Undertakers' association and attended the meetings of the association for twenty-nine years. Mr. Thiele was a member of the Masonic orders of this city and of the Janesville Commandery, Knight Templar, a member of the Odd Fellows and Moose lodges, and a social member of the Grand Army.

In 1854 Mr. Thiele was married to Barbara Loetz at Delavan, Wis., and their first child was born in 1855. Mr. Thiele died several years ago. Nine children were born to them, six of whom are now living. They are: William of Janesville; Frederick of Oshkosh; Clara (Mrs. B. Rice) of Milwaukee; Joseph; Anna (Mrs. J. E. Kinzer); and Elizabeth, (Mrs. E. Westcott) of this city.

Arrangements for the funeral are not completed.

Arthur Lowry was sent to Perring, Mich., by the local condanary, to repair a labeling machine in the plant at that city.

John Muldeen of Port Sheridan made a short visit here Saturday evening, returning to his home in Palmyra the same night.

Mr. and Mrs. G. W. Hull left last evening for Missouri to visit Mr. Hull's brother, Edson Hull, and family.

Mrs. Henry Buening is suffering from a broken bone in her ankle. It happened last Friday afternoon when she was looking after her chickens in the barn, she stepped into a hole and fell, causing the injury.

Miss Cora Williams returned last week from an extended visit with relatives at Shawano.

Mrs. Mary Campbell visited relatives in Eagle, Sunday.

A. E. Smith of Palmyra visited his mother, Mrs. Emeline Smith, yesterday.

George Crumb was at Wausau over Sunday to visit Ed. Winn, who went there a short time ago hoping the change might improve his health. Mr. and Mrs. Winn expect to leave soon for Colorado.

Mrs. C. W. Martin is taking the mud bath treatment at Waukesha.

KEEP EXACT RECORD
OF EVERY SOLDIER

(SPECIAL TO THE GAZETTE.)

Washington, Oct. 15.—A small army of clerks, operating files covering 40,000 square feet of floor space, soon will be employed by the statistical division of the war department to keep the individual record of every man wearing Uncle Sam's uniform.

Announcement of the details of this gigantic filing system forcibly bring home the fact that American soldiers will be killed, wounded and imprisoned in Europe.

The main purpose of the statistics is to provide an accurate means of checking casualty reports. Incidentally, however, the complete army history of the men will be recorded.

Maj. J. J. Jones has charge of the central office in Washington. Another will be established in Europe. Weekly reports will be made to central offices by divisional bureaus, which in turn will receive information from three members of each regiment, specially detailed to the work.

Two filing systems will be maintained. One, containing in alphabetical order the names of every man in the service, will serve also as a check in referring to the regimental files.

The record of each man will contain the name and address of his nearest relative, to serve as an aid to prompt transmission of cable reports of deaths and serious illness. The war department also will undertake to give relatives reports of military funerals, location of burial places and information concerning Americans held in enemy prison camps.

Until the Red Cross came to its aid, the British government experienced great difficulty in handling casualty reports, and by the establishment of this system the war department intends to avoid similar confusion.

TO INCREASE RATE OF SUBSCRIPTIONS

LIBERTY LOAN COMMITTEE WANTS SUBSCRIPTIONS TO COME FASTER NOW—RENEW CAMPAIGN

SPEAKERS ARE ACTIVE

Many Meetings With Great Success Arranged by Speakers—Appeal for Automobiles

Saturday's subscriptions, \$17,900. Total to date, \$219,100. With only \$219,100 subscribed to the second Liberty Loan in Janesville Saturday, and with the first two weeks of the campaign steadily well under the two hundred and fifty thousand mark, the local committee with those of the county organizations who have been working in cooperation, launched today a follow-up drive planned to bring the city's subscriptions up to the five hundred thousand mark before the close of the week.

Though the leaders are confident of ultimate success in reaching the quota assigned to Janesville, \$750,000, they will make an appeal to the people to subscribe as much as possible as soon as possible. In many of the larger cities throughout the country, and in many of the counties of Wisconsin, the campaign of actual selling, is just starting today. Beloit, for instance, will not start a canvass until Wednesday, so there has been little time here that the allotted amount would not be really well over a quarter of the total has been raised, but it is the hope of the campaign to even up the work so that there will not be a great strain during the last few hours of the campaign as characterized that of the first loan.

Under the direction of William H. Dougherty, the speakers committee has during the last week been one of the most active arms of the campaign. Meetings have been held at least once daily in the big factories and shops of the city, with the result that could be measured on the spot. In more than one local manufacturing establishment, the canvassers took up more than three thousand dollars in the space of a few hours. The factory meetings will be continued until every shop in the city has been covered. Tomorrow afternoon, Mr. Dougherty will conduct fifteen factory meetings in Beloit.

A big Liberty Loan banquet and mass meeting is being planned for next Friday evening at Orfordville, where Mr. Clarence C. Brown, state commissioner, will be the speaker of the evening. A number of carloads of Janesville men will accompany him to the meeting. On next Saturday and Sunday evenings the "Patriotic Men" will renew their speaking activities in the motion picture theatres of this city, while similar addresses will be made during the week at various points in the county. Already meetings have been conducted at Footville, Johnston Centre, Fulton, Union, Evansville and other towns.

Mr. Dougherty has divided the county into districts in each of which a chairman has been named to further the work of the speakers and to arrange meetings throughout the district. Mr. R. M. Richardson, chairman for the Evansville district; Paul N. Grubb for Edgerton, Reverend Heron for Clinton, while the central committee in Janesville is handling the speaking is under the supervision of the city committee, though local men are doing much publicity work in the campaign.

It has been the belief of the leaders that the success of small meetings, such as those arranged in factories, and at other points, is far greater than would be that of a larger mass meeting, and it is unlikely that such a meeting will be called in the near future. The belief is that with but a small aggregation of people, the personal appeal is far stronger and the results proportionately greater and more lasting.

Mrs. H. J. Bond, chairman of the women's work, makes an appeal for automobiles to be used by the women in carrying their campaign. Into the rural districts, she says, the women have met with unequalled success in their canvass of the wards, and will by the end of the week be ready to extend their work within their jurisdiction. For this work, automobiles are necessary, and must be volunteered by the owners for the first few days of next week. All owners of motors are urged to communicate with Mrs. Bond at once, that arrangements can be made for assigning various tasks to various sections, so that all automobiles have been loaned.

As a part of the publicity campaign, the city committee has erected on the corner of Main and Milwaukee streets, indicating the amount which has been subscribed to date. It will be kept constantly at the top of the time as the publicity illustration of the success of the drive in Janesville.

Minneapolis, Oct. 15.—The chiming of church bells and the whick of factory whistles signalled the opening of the big loan drive in the ninth federal reserve district where \$105,000,000 has been set as the minimum quota to be raised by October 15. From campaign headquarters, from every county in the district, squads of solicitors in autos at the given hour rolled out over the countryside with instructions to reach every man, woman and child with their message of patriotism.

Don't forget W. O. W. Harvest Festival at I. O. O. F. hall tonight.

Around The State

City Fish Market. Neenah, Wis., Oct. 13.—Neenah is to have a municipal fish market at which the people will be able to purchase fish at five cents per pound once a week.

Egg Dealers Arrested. La Crosse, Wis., Oct. 15.—A quiet inspection of grocery stores here by George H. Eigenberger of the state pure food department, resulted in the arrest of three well-known merchants on a charge of selling diseased eggs. The victims were Byron Mulder of New Amsterdam, A. C. Jostad of Holman and Stetteland and Mikkelson of Holman. The two first named sold fines but the third case has not been disposed of by Judge Brindley. More arrests are expected.

Stop Night Work. La Crosse, Oct. 15.—Three La Crosse candy factories, supplying a trade all over the middle west, the northwest and the southwest, have discontinued overtime work in the evening from 6:30 until 8 o'clock, to conserve sugar and coal. The new policy will affect seriously the output of Christmas holiday candy.

Saves Husband's Life. Plymouth, Oct. 15.—But for the timely assistance of his wife, Fred John, a Waldo farmer, would have been killed by an infuriated bull which attacked him. John had been knocked down and was in danger of being gored by the animal when Mrs. John came to the rescue and with the aid of a pitchfork held the bull at bay until her husband could escape.

Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: (1) I am a girl of fourteen and should like to be acquainted with some nice young boys who go to my school. Please advise me how to get acquainted.

(2) There is one boy who goes not to my school, but I have always known his name but he has never spoken to me. I have learned his name through some other girls. He passes our house shoes large enough and ones that do quite often. How would you advise me to attract this boy's attention?

(3) The boys I know at school when they meet me on the street do not speak or tip their hats. Do you think this is impolite or do they not think of it?

(4) If the principle of the school waves his hand to let his hand shake with me, what should I do?

(5) What kind of shoes are girls of fourteen wearing? I am not very tall for my age.

(6) I am a blonde-brunette. What color of a broadcloth dress would be suitable for me? I wish some dark color.

(7) Have your mother give a party and have her invite some of the girls and boys from school to come to the party. There you will all get acquainted with each other.

(8) Do not try to attract any boy's attention. It is very unadvisable and you will lose a good reputation if you do it. Let him alone.

(9) They are not required to tip

their hats to a girl of your age, but if they do not even say "Hello" it is either because they are bashful or because they have never been taught to do so. Probably they think it would be bold if they did speak and are just trying to be gentlemanly.

(4) Smile and say "How are you?" to him. It is all right to wave both hands. A little childlike.

(5) Girls going to school should wear any kind of shoes that are comfortable and that do not pinch the feet or toes. If you take care to get shoes large enough and ones that do quite often. How would you advise me to attract this boy's attention?

(6) Very dark blue, green or purple.

Dear Mrs. Thompson: My little girl seven years old has just been going out with boys. I don't object to her going once in a while, but she goes four and five times a week, and stays out very late. I tell her it isn't nice, but she says that all the girls do it and now I don't know what to do. I never used to when I was her age, but I don't want to stop her if you think it is right. Please tell her what you think right to have to do with company or whether I ought to put a stop to it.

MRS. A. D. J. You are right about objecting to so much company for your daughter. At her age once a week is plenty for her to be out. She is very young to be going places alone, but she ought to be allowed to have boys come to see her once or twice a week at most. Things have changed somewhat from the time you were a little girl, but the principle is the same now as it was then. Young girls shouldn't get the habit of going out at night so much. It would be nice if she could have little parties at the house some evenings such as Christmas parties and Valentine parties and the like, when she can invite three or four of her girl and boy friends and she is young to begin keeping company with young men now.

SIDE TALKS RUTH CAMERON

That Very Thin Covering. Very, very close under the skin in most of us lies a naked and naive girl.

Our own personal reaction to every event is what chiefly interests us, no matter how close we hide it. Now and then something rips this covering off. One such something which has an almost universal effect is a great excitement.

The Night of the Big Fire. Not long ago I happened to be present at a big fire.

All my neighbors also attended and the next morning when neighbor met neighbor there was no other topic of conversation but that. And nearly as interesting as the fire itself was the naïve and really delicious egotism that almost all of us displayed.

What the Was Do? Prime Importance. In the first place everyone seemed to think that what he was doing when the fire broke out was the most interesting thing about it.

One lady circumstantially how she went to draw down the curtain after putting her baby in bed and just what she thought when she saw the flames.

HEALTH TALKS

BY WILLIAM BRADY, M. D. LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

DALLYING WITH COUGH. To a sensible mind it stands to reason that no remedy or combination of remedies a doctor, or anybody else, can devise will be suitable for each or many of the various ailments which cause a cough.

For instance, one of the most frequent causes of acute cough, attributable to a pinched on the chest, by the victim because of soreness felt somewhere in the chest, is in reality an excessive secretion of mucous in the nose or the back of the throat.

What the Narcotic Ingredient in the inevitable cough mixture is a vicious thing for any one to fool with, and a deplorable handicap to a child with a cough. The plum, or other narcotic found its place in the mixture originally because of the gross ignorance of the prescriber.

There are in practice but rare occasions when it is justifiable or helpful to the patient to restrain or suppress certain attacks of coughing or affections of the larynx, or far advanced or hopeless tuberculosis when coughing prevents sleep or disturbs the patient.

But in the majority of cases, where cough is a symptom it is a dangerous thing to stop the cough by means of narcotic drugs. The danger lies in the fact that the narcotic cough mixture will lock up the various secretions of the body and so pave the way for a serious aggravation of the original infection.

Indeed, this is the history in a great many cases of bronchitis or pneumonia. The patient tries this and that cough medicine, imagines himself a little better while under the immediate effect of the narcotic, then grows steadily worse and finally succumbs to the doctor.

Taking medicine to help an illness which produces coughing and taking medicine to stop a cough are widely different things.

One more we commend the always harmless and often helpful teas and gruel used to make a laxative, sweetened with glycerin and flavored with lemon juice, in large quantities every hour or so, is always safe and generally good for the patient with an acute cough. Or this combination may be given to children with a cough without doing harm, and is always going good. It is lemon juice, 1/2 ounce; citrate of soda, 1/2 ounce; fluid extract of licorice, 1/2 ounce; glycerin, 1 ounce; boiled water, 1 pint; gum arabic, 1 teaspoonful. Teaspoonful to children.

QUESTIONS AND ANSWERS. Thrombosed Varicose Vein. I have had varicose veins in the legs since I was young woman, and now below the right knee, which used to be the other morning as the blood had clotted in the vein.

I have been using anti-phlogistine on it, but it gets worse right along. There seems to be several hard bunches

from across the street, but I don't know you see him?

CUT EXPENSES FOR PHILOMATHIAN CLUB

Program Committee Starts Economy Measure for Local Organization—Name Delegates.

Hand made programs of the year's work were distributed at the meeting of the Philomathian club, held at the home of Mrs. W. A. Munn on Saturday afternoon. They were prepared under the direction of the program committee, whose chairman was Mrs. F. H. Farnsworth, at a total expense of \$2 cents. This economical expedient was decided upon by the committee as a war time measure to save expense.

The resulting programs are a very neat and dainty appearing booklet. Some business was transacted at this meeting with the new president, Mrs. J. R. Whiffen present. The delegates to the state convention at Madison were announced as Mrs. Craig and Mrs. Helms. A committee to arrange for more work for the Red Cross was also named. The members were Mrs. Whiffen, Mrs. Howe and Mrs. Sanborn. A social hour was spent by the club in talking over plans for future work, and the hostess served delicious refreshments.

The next meeting will be on Oct. 27 with Mrs. Lillian Eddy as hostess.

EVERYDAY ETIQUETTE

(Miss Hoyt was answer in this paper all questions on matters of etiquette addressed to her in care of this paper. A personal answer to a desired enclose two-cent stamp.)

A very young girl has her cards engraved "Marion Brown" or "Alice Day." A youth also has his cards simply "George" or "John" or "Wise," omitting Mr. The oldest daughter of the family is "Miss Brown" or "Miss Jones." The younger sisters use their Christian name with surname.

MRS. P. A. It is very difficult thing for a capable and experienced housekeeper to stand back and occupy an insignificant position in the home; but that is exactly what every woman must do who goes to live with her married son or daughter.

The young wife is the mistress of the house; and the mother or the mother-in-law must not forget this important fact. It is in her right to use her rights. A kind and tactful mother can and will give valuable advice and assistance, without assuming any authority, and without offering criticism.

skim; add one-fourth pint of sugar to each pint of juice, and after it is dissolved, boil at once for six minutes. Fill into heated bottles and seal at once.

Grape Conserve—Five pounds of grapes (puimped), five pounds of sugar, one pound of raisins, one pound of English walnuts. Boil twenty minutes, or until thick.

Pear Chutney—Eight pounds pears, four pounds sugar, quarter pound white ginger root, four lemons. Peel, core and chop fine. Add sugar and lemon slices. Dissolve sugar with the ginger added. Pour it over pears and let it stand over night. In the morning add the lemons, after removing skins and seeds, cut in thin slices. The lemon peel in muslin bag and boil it with pears slowly three hours. Then take out lemon peel and put pears in small jars or jelly

Sliced Cucumber Pickles—Slice eighteen large cucumbers (peeled) and one quart onions. Place in pan together and cover with salt about one hour. Boil three hours in vinegar, two cups water and three cups sugar till you have skimmed it clear. Then drain cucumber and onions on the salt, place in syrup with a handful of whole spices. Let come to a boil and they are ready to put in crocks or jars. They are very nice.

CHEAP CAKE. Here is a recipe for a cheap and quickly made cake. One cup sugar, one cup raisins or dates cut small, one and one-half cups water, two cups flour, two teaspoons baking powder. Put all together. On top put tablespoon softened lard and one-third teaspoon each nutmeg, cloves and cinnamon. Stir briskly for three minutes and bake in layers. Nut can be added if desired.

Frosting—One cup brown sugar, small lump butter and two tablespoons milk. Boil until it forms a ball in cold water. Remove from stove and add one-half teaspoon vanilla. Beat until it begins to thicken and spread quickly over cake.

WOMEN'S AUXILIARY OF DEFENSE COUNCIL IN REGULAR MEETING

There was a meeting of the women's council of the County Defense league held in this city on Friday with the president, Mrs. Anderson of Evansville attending. Besides the local members of the council there was a good attendance from other places, several ladies coming from Beloit to attend the meeting. Splendid reports were given of the recent meeting of the council held at Madison, which was such a great success, and plans for future work were outlined. Mrs. Gorham of Beloit also spoke at length of a movement for a conservation of food tried out this season in New York City.

A committee of club women have made a special effort to see that the over fruit and vegetables on the wharf docks were saved and utilized. In this way thousands of cans were canned for food that would be otherwise wasted. Splendid success was achieved, as there was very little spoilage.

Evidently He Was Annoyed. A girl who was running a London Bus was making out her first report. Under the heading "Accidents" she stated: "Bumped into an old gent." Under the heading "Remarks" she said: "Simply awful."

"Slim, waistless, straight and tall, she must be this fall," is the present day song of the woman's tailor. The girl in the picture is dressed in the height of fall fashion. Dark colors prevail for street and afternoon wear.

SENDS SUGGESTIONS FOR HOUSEWIVES ON OBSERVING NEW DAYS

Wheatless and Meatless Days Are Problems That Housekeepers Have to Solve—Some Menus Given.

"Serving hot breads seems to offer the most sensible and handy solution of the wheatless day's menus," says Miss Amy L. Daniels, food specialist, home economics department, University of Wisconsin, who has consented to outline weekly bills of fare to help the Badger housewives perform their patriotic obligations.

"Delicious muffins, baking powder biscuits and hot breads of various kinds really present a better way to observe wheatless days than to try to bake special loaves of raised bread for the purpose," Miss Daniels says.

"In the trials at the home economics kitchens, the hot breads, as well as spice cakes and doughnuts, made entirely from barley flour have been a success, and we have also made bread using but 12 to 15 per cent of wheat in with barley flour."

Miss Daniels believes that for those who like whole wheat or graham breads there can be a further saving in wheat by substituting combination loaves of barley and wheat through the week in addition to the special hot bread menus on Wednesdays. Barley flour is now being made by at least two Wisconsin mills, in Dunn and Marathon counties respectively. It sells for about \$8.50 a barrel, which is considerably cheaper than wheat flour.

The makers of this barley flour say in a recent letter to the home economics department that the cost of manufacture will remain about stationary. They think that the future prices can be measured by the cost of the grain and the cost of selling it, and the latter element is probably within the control of the public demand. With a lively demand dealers can handle it at narrower margins.

Menu for Tuesday. A MEATLESS DAY. Breakfast. Melon. Goldenrod Eggs. Toast. Coffee. Milk for Children. Lunch. Cream Tea Soup. Croustons. Cheese. Apple Pie. Dinner. Baked Carp—Armenian Style. Baked Potatoes. Lima Beans. Apple and Celery Salad. Peach Tapioca Pudding. Cream (Top Milk). Golden Rod Eggs.

3 hard boiled eggs. 1 tablespoon butter. 1/2 cup milk. 1/2 cup sugar. 1/2 teaspoon salt. 1/2 teaspoon pepper. Toast. Peelery.

Make a thin white sauce with butter or other fat, flour, milk, seasonings. Separate whites from yolks of eggs, chop finely, and add them to the sauce. Arrange slices of toast on a platter, and pour over the sauce. Force the yolks through a strainer or a potato ricer, sprinkling over the top. Garnish with parsley.

Baked Carp—Armenian Style. 3 pounds carp flesh. 2 onions. 3 ripe tomatoes or 1/2 cup stewed tomatoes. 1/2 cup beef fat or oil. 1/2 bunch mint. 1 cup water. 1 teaspoon salt.

Place the tomatoes and sliced onion in layers in the baking dish. Lay the skinned and boned carp in the dish and cover with a second layer of sliced onion and tomato. Sprinkle the finely chopped mint and parsley, salt and pepper over the top. Pour over this the melted fat or oil and bake in hot oven at least half an hour or until the fish is tender.

Peach Tapioca. 2 cups fresh peaches. 1 cup sugar. Boiling water. 1/4 teaspoon salt. 1 cup tapioca. Sprinkle peaches with sugar and 1/2 stand one hour; soak tapioca one hour in cold water to cover; to peach syrup add enough boiling water to make three cups; heat to boiling point, add tapioca drained from cold water, sugar and salt; then cook in a double boiler until transparent. Add peaches and turn into a mould. When cold serve with cream (top milk). Menu for Wednesday: A WHEATLESS DAY. Breakfast. Oat Meal. Cream (Top Milk). Coffee. Barley Muffins. Milk for Children. Lunch. Corn Oysters. Apple Jelly. Barley Biscuits. Cocoa. Dinner. Pot Roast. Mashed Potatoes. Cream Cauliflower. Celery. Fruit Cocktail. Barley Muffins.

1 egg. 1 cup sour milk. 1/2 teaspoon soda. 3 teaspoons baking powder. 1 tablespoon sugar. 1/2 tablespoons melted fat. 2/3 cups barley flour. 1/4 teaspoon salt. Beat egg, add sour milk, sugar and soda dissolved in a little cold water; stir baking powder with flour and sugar into first mixture; add melted fat. Bake in a moderate oven from 20 minutes to 1/2 hour depending upon size.

To two cups corn chopped fine add one well-beaten egg, one-fourth cup barley flour, 1 tablespoon milk and season highly with salt and pepper. Drop by spoonfuls (about the size of largeysters) and fry in deep fat, or cook on a well-greased griddle.

Barley Biscuits. 3 cups sifted barley flour. 1 teaspoon salt. 3 tablespoons lard or other fat. 1 cup milk. 2 teaspoons baking powder. Prepare as for baking powder biscuits.

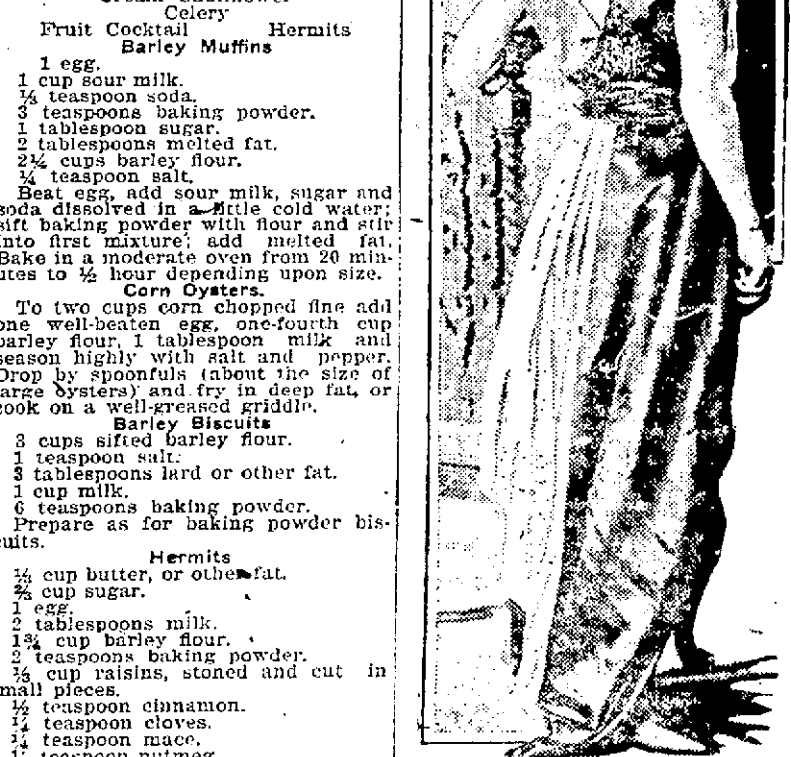

Hermits. 1/2 cup butter, or other fat. 1/2 cup sugar. 1 egg. 2 tablespoons milk. 1/2 cup barley flour. 2 teaspoons baking powder. 1/2 cup raisins, stoned and cut in small pieces. 1/2 teaspoon cinnamon. 1/2 teaspoon cloves. 1/2 teaspoon nutmeg. Cream the butter or fat, add sugar gradually, then raisins, egg well beaten and milk. Mix and sift dry ingredients and add to first mixture. Roll mixture to about one-fourth inch; shape with a small round cutter. Place near together on a well buttered sheet and bake in a moderate oven.

ACCIDENTAL DISCHARGE OF SHOTGUN KILLS BOY [SPECIAL TO THE GAZETTE.] Appleton, Wis., Oct. 5.—The accidental discharge of a shotgun on Saturday instantly killed Lambert Reynolds, aged 19, while hunting just outside the city limits of Kaukauna. The charge tore off the right side of

his face and jaw. Reynolds and a companion were entering a blind hunting ducks and were creeping over the ground when his gun struck on some hard substance causing it to discharge. This is the second fatality of this kind in Outagamie county this season.

NEW EVENING GOWN

Striking evening gown, draped in black and white satin. Quite a novel note is struck by the treatment of the two colors—one half of the skirt and bodice is all white and the other half is all black. This tends to accentuate the graceful lines of the gown.

EVERY TEN YEARS

you buy a house and lot for your landlord. Did you ever
think of that?If you pay \$20 a month rent, you are giving the land-
lord \$240 every year—\$2,400 in ten years. For that amount,
you may buy and pay for a neat little bungalow in a pretty
residential part of town.Change front, wake up, get busy! It's mighty poor
business to keep buying houses for your landlord all your
life. Within 24 hours, you may get a good home, paying a
little down to bind the bargain, and paying \$20 a month
thereafter until your own home is paid for.Read the Classified Ads in The Gazette under the classi-

roads for many miles and then encoun-
ter very poor entrances into a city, says
the New York Evening Post. The con-
trast between the good rural roads and
the very poor ones within city limits
is often due to the laws under which
road improvements in a city must be
financed. In many cases the cost of
the improvements is borne entirely by
the abutting property, whereas the ru-
ral roads are improved at the expense
of an entire township, often with coun-
ty or state aid. The people of Sioux
City, Ia., had wretched roads leading
into the country for a number of years,
although the roads connecting with them
were considerably better. The legisla-
ture was accordingly asked to
pass a law by which these country
highways within the city limits could
be improved at the expense of all of
the property benefited, just as the wet
lands in Iowa have been improved dur-
ing many years by forming a drainage
district for each section benefited by a
drainage system and distributing the
cost of the work over the district.

EXAMPLE OF POOR ROAD.

When the legislature passed a road dis-
trict law for the improvement of the
highways of Sioux City a number of
road districts were formed within its
limits.The work was financed by first deter-
mining the proportion of the total cost
of each road which the city as a whole
should pay. This proportion ranged
from 32.5 to 40.35 per cent. The re-
mainder of the cost in each district
was then distributed over all of the
property within it, some of the prop-
erty being laid out in lots and other
parts being typical Iowa farming land.
The distribution of the expense was
first made by estimating that the lots
and the farm lands abutting on the
road and most directly benefited should
be ranked as paying a 100 per cent as-
essment. Lots and farms at a greater
distance paid a reduced assessment, and
in this way it proved practicable to
raise the money in an equitable
manner rather than by assessing the
whole cost against the abutting prop-
erty in the old way, which would have
been impossible to carry out because
the cost was far too great to be borne
by such property. Under this system
farm land carrying a 100 per cent as-
essment paid from \$12 to \$20 per acre
in the different districts, and there
were a few plots where the special
benefits were marked, which were given
a 125 per cent assessment.As an example of the way this sys-

CONFERENCE TEAMS MAKE GOOD SHOWING

Excellent football on the part of the conference teams characterized the playing of those teams in their preliminary games held on Saturday. Practically all of the teams with the exception of Northwestern showed that they will be of a good calibre. Northwestern met Ohio State in what was expected to be a game which would result in a close score, but the Purdue showed themselves of inferior ability as they were snowed under by the count of 40 to 0. Coach Wiley has unarguably another find to play the opposite half from Harlow, with the result that he is out for the conference title with a strong bid.

Wisconsin was held to a 0 to 0 tie by Notre Dame. The Catholics were of unexpected strength and the Badgers were afraid to extend themselves and take any chances. The showing was poor from the Badger standpoint because of the fact that Illinois in the schedule of the next week and some great improvement will be necessary before the work is over.

Chicago made a very creditable showing by piling up 48 points against Indiana. The new style plays were used by the Maroons as they were content with scoring by the straight football methods. Vanderbilt was not as strong as in former years, but they gave the Maroons a hard battle. Minnesota performed its usual stunt of winning its first game by a big score when they trampled all over South Dakota, winning by the count of 84 to 0. It is a question on the result of this game whether the Gophers are unusually strong or their opponents were weak.

Michigan got a good start with a 33 to 0 win from Mt. Union. Iowa did not fare so well, however, in their game with Nebraska because of their defeat by the Cornhuskers. The Nebraska team did played everything which a team should have in mid-season form, while Iowa was far weaker than expected. Purdue pulled through a tight place by winning from DePaul by the narrow margin of 7 to 6. There was little to choose between the two teams as far as ability is concerned, so that the Northwestern must show some great improvement if they expect to win honors in the conference.

FOOTBALL OUTLOOK BRIGHT IN INDIANA

Hammond, Ind., Oct. 13.—Old man gloom has disappeared from the camp of the Indiana university football squad, the situation is improving daily and every indication points to a successful season despite the colors flax which took over the colors of the team of last year's varsity and freshmen teams. Coach Steffen and Evans now have the State team in mid-season form and are driving the team to top speed every day. They have in mind three league games—the opening conference contest at Minneapolis Saturday, Oct. 20, and next at Washington park, Ind., and Indiana, Saturday, Nov. 3. The Crimson eleven will end up the season against its old rival, Purdue, in this city. Freshman team was considered the best Indiana has had in many years and practically every member is now starting with an exception is C. L. Howard, a brilliant line plunger, who will have a regular berth at fullback all season. Other members of the regular varsity team are: Captain H. C. Hathaway, 18; E. E. Hickey, 19; J. J. Jones, 18; R. D. Minton, 19; J. C. Cravens, 19; J. B. Faust, 19; Charles Fowler, 18; J. B. Kewyer, 18; H. O. Hearn, 19; G. P. Hartzell, 19; Harold Daltzell, 18; T. A. Von Tress, 18.

Out of the above material the coaches expect to build a fighting machine that will finish high up in the race for the western conference pennant. The backfield is not giving any worry but there are two or three places in the line that have not been settled. Captain Hathaway plays left tackle, and H. Ewert, a star of last year's freshman eleven, removes a condition. He will be on the opposite side of the line. Murphy a 210 pounder, is a new man being tried out at guard. All in all the outlook for a successful season has improved wonderfully since the first week of practice.

EDGERTON DEFEATED MONROE ON SATURDAY

Edgerton, Oct. 13.—Before a good sized crowd, Edgerton High School defeated Monroe High School at football at the Driving Park of this city. Saturday afternoon by the score of 13 to 0. Both touchdowns being the result of plunges over the line after working the ball down the field. The Monroe team won the toss and elected to kick off to the north end of the field. After receiving the kick-off Monroe proceeded to make several first downs on Edgerton, after which they were held and made only one occasionally first downs after that. Monroe's weakness was in the receiving of punts, but Edgerton failed to take advantage of that fact and punted only when necessary.

One touchdown was made in the second quarter, and the other in the fourth quarter. The first touchdown was made by Hines and the other by Curran. Peters missed both goals from difficult angles.

Webster, left end for Monroe, was the

IF YOUR NEW OVERCOAT FITS LIKE THIS AROUND THE NECK, YOU SHOULD FEEL COMFORTED BY THE FACT THAT YOU HAVE ABSOLUTE FREEDOM OF THE HEAD WHEN YOU STAND UP AGAINST THE BAR.

THE ADVANTAGE OF THIS OVERCOAT IS THAT YOU CAN COLLECT A FEW SILVER SPONSORS WHEN DINING AT A FRIEND'S HOUSE WITHOUT HAVING THEM SHOW ON YOUR PERSON.

IF THE SLEEVES HAPPEN TO BE A FOOT OR SO TOO LONG, YOU SHOULD FEEL COMFORTABLE TO THE THOUGHT THAT YOU CAN'T REACH YOUR POCKETS WHEN A FRIEND TRIES TO MAKE A TOUCH.

IF SOMEBODY TALKS YOU INTO THIS KIND OF A COAT YOU CAN FEEL THAT YOU ARE SPREADING HAPPINESS ALL ABOUT YOU BECAUSE EVERYBODY WHO LOOKS AT YOU WILL LAUGH.

THESE ALL-WEATHER TRICK COLLARS MAY LOOK REGULAR, BUT THEY FURNISH YOU WITH A PUZZLE TO WORK ON DURING THE LONG WINTER NIGHT.

WHEN WEARING AN OVERCOAT OF THIS LENGTH YOU CAN WALK AROUND THE HOUSE A FEW TIMES AND SAVE THE PRICE OF A CARPET-SWEPPER.

THE GAZETTE'S MOTORIST PROBLEM DEPARTMENT

MOTORING DEPARTMENT. THE GAZETTE.—Am a subscriber to your paper, also an interested reader of your Weekly column, and would like to have you answer the following question: I have been informed that by removing the muffler from my 1917 Ford car it would increase the power of the motor. Am aware of the fact that by removing or cutting out the muffler it helps to keep the motor cool on a long, hard run, but would it tend to increase the power of it? Would appreciate an early answer. Thanking you for a reply. C. D. F.

Undoubtedly cutting out the muffler gives a small percentage of power, but it is more than 5 to 10 per cent, unless the muffler is clogged. It helps slightly in the matter of cooling, as the gas has a freer exit. By removing the muffler entirely, the slight gain would be shown at the end of a day, but the nerve-racking effect of the noise should be considered. However, a muffler cut-out or occasional use would be a decided advantage.

MOTORING DEPARTMENT. THE GAZETTE.—I have a Studebaker, 1916, equipped with Wagner starter and generator. I use about 10 gallons of gas a week, and the battery is burning. The generator will not charge the battery when they are all on, but seems to work if only part of them are on. Is there anything I can do to get more amperage at the terminals of the generator? There is no deflection with an ammeter connected in series. Either the commutator of your generator is dirty or the brush brush needs adjustment. Clean your commutator, run engine and hold a cloth dipped in gasoline on commutator. If this does not remedy the trouble, have your generator overhauled. Try this test with ammeter. Disconnect wires at generator and ammeter, marking them so that they may be replaced correctly. Connect ammeter wires together so that ignition current can pass through the wires from generator to ammeter, and start engine. If ammeter needle does not move ammeter is at fault.

other colleges. If the financial condition of the athletic treasury permits it, however, and the board of athletic control says yes, Princeton will probably have a varsity team in the winter next spring to compete a very strong one, however, as every man from last year's first eight and all but one from the second have gone to college or are in military service.

Harness racing rivals golf in the attraction it has for young and old. It happened a short time ago that while the veteran Ed Geers, who is sixty-seven years old, was driving St. Frisco to a record of 2:01 1/4 on an eastern track, Willie Smith, an eighteen years old, piloted the bay pacing mare Busy Time, 2:13 1/4 in a race at Des Moines. Smith is said to be the youngest professional driver on the trotting turf.

Harry Tutthill, trainer of the Detroit Americans, was excused from taking the fast eastern trip with the baseball club, so he could go to Ann Arbor and train the University of Michigan football squad. He seems optimistic regarding Michigan's chances this autumn. "Are not the boys' chances for a winning season rather slight?" he was asked. "Certainly not," said Tutthill, "I'll be there."

Hughie Jennings may be president of the Boston Red Sox club next year. This information came from an unquestionable source recently and with it a report from a member of the Boston club, that Edward J. Robinson, who Boston secured from Cincinnati a few years ago, signed a 1918 contract to manage the Boston Sox a short while ago. A syndicate of wealthy baseball enthusiasts is backing Jennings and intends to take over the Boston franchise. Harry Frazee, principle owner of the club at the present time, will be ousted, according to American league insiders.

These men say that when Frazee purchased the club from J. J. Lannin in 1915, he paid him \$100,000, but \$150,000 of the purchase price agreed on. The balance has not been paid and therefore it will not be a difficult matter to separate Frazee from the franchise. Frazee has been unpopular with his fellow magnates and President Ban Johnson ever since he came into the league, it is said. He was formerly connected with the business end of the theatrical business and baseball was a bit too strange for Frazee, who could not quite get accustomed to major league ways. The club is not popular in Boston. As it is at present the club cannot be expected to make money.

The club must be reorganized, it is said, and under present conditions it is said to be impossible for Boston to make money next year. It should therefore be easy for the capitalists backing Jennings to secure control. Jennings is the most popular ball manager coming to Boston. They swear by him in the Hub and he has a greater following there than any manager Boston has had. Placing him at the head of the Red Sox team should mean a return to fat dividends.

In recognition of the fame he has given his native country in the billiard world, Alfredo De Oro has just been voted a life pension of \$150 a month by the Cuban government. For thirty years he has been a prominent figure in the cue sport, having won the pocket billiard and three cushion titles more often than any other player. No champion, so far as is known, was ever rewarded in a similar manner.

I am thinking of equipping my Studebaker Model 18 with two spark plugs to each cylinder. Would a special plug have to be used for the second plug or an ordinary one? What would be the advantage, if any, of such an installation? Thanking you for a reply. H. R. D.

The only pronounced gain from a twin spark is made in a T-head engine. It is doubtful if the slight gain would offset the inconvenience of having no relief valves, as they would have to be removed to make room for the extra spark plug. No special plug is necessary.

MOTORING DEPARTMENT. THE GAZETTE.—I secured a rear light for my Ford with a complete from a well known firm, but I can't locate a place so it will run on the magenta. It worked on dry cells all right, but you give me some information where to connect? Thanking you in advance. H. O. L.

On top of dynamo case you will find a terminal and a wire which runs to induction coil on dash. Attach your light wire to either terminal. Run to it switch at some convenient point and then to lamp. If lamp is surrounded through bracket no further wiring is necessary. If not a wire must be run from lamp to some part of frame.

MOTORING DEPARTMENT. THE GAZETTE.—Your "Motor Department" is always interesting, and I certainly appreciate the information given. I wonder if there is anything that can be done to avoid the tail light from going out? It's a Ford, but somehow or other it doesn't stay lit: lots of kerosene or little. Wish you would advise through your columns, please. If there is anything that will help. The front lights are not affected. Of course, this usually happens going over car tracks, etc., but sometimes does the same thing on a level stretch. Any information would be appreciated. J. O. R.

Sometimes this is due to faulty design of the lamp, some of the wiring, or the switch. It is from around the car. Try placing it on another part of the rear of car. If this does not remedy the trouble a new

lamp must be provided.

MOTORING DEPARTMENT. THE GAZETTE.—I want to ask if the storage batteries furnish any power for the spark in a twelve

HELPFUL HINTS.

One of the causes of tire wear that is frequently overlooked is jamming on the brakes too suddenly. This causes the tire to slide on one spot, wearing away the tread. Letting in the clutch suddenly causes the tire to slip and wear the tread in another.

Holes and ruts also contribute their share to the matter of tire wear. They shake and jolt the tread and tear it loose from the fabric. There is no remedy for such a condition, except to have the tire vulcanized.

Keep watch over the electrolyte in the storage battery, as it is more apt to run low in summer than in winter. This is due not only to evaporation, but also to the water being broken up by the charging current. So fill the battery with fresh water every week instead of every two weeks.

While striving to keep down the high cost of living do not overlook the tires. Watch for small cuts in the tread, as they are a frequent cause of trouble. Sand gets into them and makes them larger, finally causing small holes on the sides. Clean out all such cuts and fill with repair gum. If the fabric is reached it will rot. Such cuts should be vulcanized.

If oil and grease drip out of wear case or differential housing the bolts must be set up more tightly, as it is an expensive job to replace all the gaskets. If tightening the bolts does not stop the leak, use a heavy grease, one which will not thin out so much in hot weather.

cylinder Pathfinder. I heard an automobile man say they furnish the lights, horn and starter, but had nothing to do with the spark. If this is true, why does the ammeter show discharge when you are not using horn, lights or starter, but when you are running slowly, or sometimes when going down hill and you have your gas low and spark low?

Yes, the ignition current is derived from the storage battery, just as shown by the ammeter. It would require a magneto or an extra storage battery if your friend's statement were correct.

MOTORING DEPARTMENT. THE GAZETTE.—I would be very much pleased if you would let me know why my Dodge car backfires when I am going about twenty-five miles per hour up a hill. Can a box of fifteen drive my car when I am with him, or can he get a license at that age? A. G. M.

The air adjustment on the carburetor may be set too weak and so draw too much air at certain throttle positions, or there may be a short circuit of the ignition wires. According to the New Jersey law no one may get a driver's license under sixteen years of age, and no one may learn to operate without a teacher's license. Apply to office of Secretary of State, Motor Vehicle Department.

MOTORING DEPARTMENT. THE GAZETTE.—Will you please tell me how a 1914 model Ford car can be used to prevent it from washing too much dirt to prevent it from washing too much dirt near the valve stems to give the oil a chance to drain back into the crank case, but this did not help the trouble much. J. H. H.

Probably the valve lifters and guides are badly worn and should be replaced by new ones which do not leak oil. The holes will help the oil to drain back, but they will have to be plugged with new lifters instead. Make sure that the guides are bolted down securely and make a good fit at the base, as there may be some leakage there.

MOTORING DEPARTMENT. THE GAZETTE.—Will you please inform me in your column if there is a school for ladies to take instruction on caring for autos, repairing, etc. Thanking you in advance. J. J. J.

The Stewart Automobile School, New York City, has excellent facilities for teaching ladies.

MOTORING DEPARTMENT. THE GAZETTE.—Will you kindly answer the following in your paper? I have a 1911 Buick and

want to put in the Spalding magnets, model X, three magnets. My car has four magnets. Please explain how to put the magnets so they will run. Thanking you much, I remain, S. N. B.

Having bolted magnets in place, No. 1 cylinder at top of compression stroke, watching exhaust valve of No. 4 cylinder until it is almost closed. Then set the (dead center) mark on flywheel at the top. Turn spark advance in same direction armature is to turn. This retards the spark. Turn armature in direction it is to turn until breaker points are just about to separate. Fasten armature to its driving shaft. Set where distributor brush comes, and fasten No. 1 spark plug wire at that point of distributor. Wire up remaining distributor terminals to spark plugs around ing to firing order. Run a wire from each cut-breaker (armature) terminal to switch on dash and from switch to ground. This is the short-circuiting wire to control magneto current. If anything above is not understood we shall be glad to explain more fully.
